September 15, 2003

To the Members of the Citizens Advisory Committee for Watershed Evaluation:

Welcome to the Citizens Advisory Committee (CAC) for study of the Jackson Creek Watershed property. We hope that your membership on the committee will be informative, productive and fun. The organization and scheduling of your committee is entirely up to the committee. We will be looking forward to periodic progress reports as you work toward a final report. We have envisioned a final report within a year, although that is not mandatory.

Enclosed is an information packet for background on the watershed. Please let us know if we can provide further information.

The watershed property is a valuable asset of the city. It has a rich history in gold mining, as a water source for the city, logging, and for recreation and wildlife.

Thank you for volunteering to help the city develop a citizen's dialogue and recommendations regarding the future of the watershed property.

Sincerely,

James W. Lewis
Mayor
